PROFILE

As a passionate software developer with an eye for detail and a love for all things digital, I specialize in creating visually stunning and intuitive web experiences. My expertise lies in frontend development, primarily using JavaScript, TypeScript, React, Next.js and many more, to build engaging and delightful user interfaces. On the backend, I leverage Node.js, SQL, NoSQL databases, and various other technologies to ensure robust and scalable applications. Recently, I've been working as a full-stack developer, building SaaS applications, landing pages, and various online services. My focus is on delivering responsive, efficient, and stylish web applications. When I'm not coding, I enjoy exploring new design trends and experimenting with the latest software development techniques.

EDUCATION

Bachelor Degree in English
Universum International College
2017 - 2020

LANGUAGE

- Albanian** - Native
- English** - Advanced C1

WORK EXPERIENCE

2024
April - Present

Atlex Consulting

atlexconsulting.com

Software Developer

- Developing internal projects and collaborating with the team on various initiatives, including fintech solutions.

2023-2024
OCTOBER - FEBRUARY

Benkco

benkco.com

Software Developer

- While working at Benkco as a full-stack software developer, I was part of a team led by an experienced developer. We used technologies like MERN Stack, Next.js and many more. I worked on different projects, handling both front-end and back-end tasks. Collaborating with the senior developer helped me learn and apply effective development practices in a team setting.

2023
JUNE - AUGUST

StarLabs

starlabs.dev

Web Developer

- During my 3-month internship at StarLabs, I primarily worked with the MERN Stack, collaborating with a team and under the guidance of a senior team lead. The experience provided valuable insights into real-world applications of these technologies.

2021
-
Present

Freelance Web Dev

labinotveseli.com

Web Development

- Working as freelance web development with the focus on WordPress Development, hosting, web design, manage and maintenance.
